

Industrial CPD Seminar

Automatic Fire Detection Alarm, Drencher, Ventilation and FSIs acceptance testing by FSD

消防偵測警報系統, 避火層水簾設備, 通風系統和消防局驗證消防的標準

Introduction:

In the first two seminars at SRDI this summer 2019, I talked about FS rules, FH&HR, and sprinkler systems. In this seminar, we will continue to talk about AFA, drencher, ventilation & damper, and acceptance testing by FSD.

Content:

1. Fire Services Ordinance Cap95 & regulations, FSD circulars & standards on automatic fire alarm detection, drencher & ventilation.
2. FSD circular 4/96 Part XI on ventilation & damper requirements of FSD.
3. Cap123J on ventilation requirement by Building Department.
4. Cap132CE on ventilation requirement by Food, Environment & Health Dept (FEHD).
5. Design of drencher system, drencher pump sizing & calculations.
6. Review FSI's Acceptance Testing procedure of FSD.
7. Sample cases for sharing

Speaker	<ul style="list-style-type: none"> • Ir Samuel KP Lip 聶國標註冊專業工程師, RPE&MHKIE (Building Services, Electrical, Fire, Energy), CEng, FCIBSE, FCIPHE, MIMechE, MIFireE, MIET; CPE, FIE.Aust (Electrical & Mechanical colleges), FHKEnv.
Target	Practitioners in the engineering & construction industries.
Medium of instruction	The seminar will be conducted in Cantonese with materials in English/Chinese
Date / Time	12 Feb 2020 (Wednesday) 7:00pm - 10:00pm (3 hours)
Venue	SRDI 社會資源拓展學院 Rm 225/230 Houston Centre, 63 Mody Road, TST East, H.K.

Enrollment

- AsTd Society / AsTdClub Member—FREE OF CHARGE
 Others—HK\$300
