Lead Trainers

Cr. Amanda Wong

She is a pioneering force in NEC programming and project delivery across Asia. As the Founder and Managing Director of AprimaHK, she has led the firm in providing expert consultancy on over a dozen NEC3 and NEC4 contracts for major public works and MTR projects in Hong Kong.

Awarded the Grand Award – NEC Consultant of the Year by the Chartered Institution of Civil Engineering Surveyors (CICES), Amanda is one of Hong Kong's few recognised Programming Experts. Her mastery of project scheduling and delay analysis has been instrumental in resolving complex challenges across infrastructure, civil works, E&M, and data centre developments.

Amanda's project portfolio spans iconic developments such as the MTR Northern Link development, MTR Tung Chung Line Extension, Tuen Mum South Extension, West Kowloon Development, M+, Lyric Theatre, Xiqu Centre, Tuen Mum Chek Lap Kok Link, Lingtang Boundary Crossing Facilities, Deep Bay Link, Route 8 Shatin Heights Tunnel, West Rail, and Macau Resort Developments. She has also contributed to high-tech data centre programs in Hong Kong, Taipei, and Korea.

As an NEC3/NEC4 Accredited Project Manager, Amanda brings unmatched insight into the intricacies of NEC programming, risk management, and contract strategy. Her training sessions are enriched with real-world case studies and practical tools that empower project managers to lead with precision, foresight, and confidence.

Amanda guides participants through the full lifecycle of NEC project management. From early warning systems and programme revisions to compensation event assessments and cost control procedures, ensuring they are equipped to deliver successful outcomes under NEC frameworks.

Mr. William Tong

William is a distinguished Solicitor and Chartered Construction Manager with over 30 years of experience in the construction industry and more than a decade of post-qualification legal practice. His rare dual expertise in law and construction empowers him to deliver authoritative insights into complex project delivery, contract administration, and dispute resolution.

As an NEC4 ECC Accredited Project Manager and Accredited Adjudicator, William brings deep practical knowledge and strategic precision to NEC contract training. He has successfully led major infrastructure and building projects across international markets and is renowned for his ability to navigate intricate contractual challenges with clarity and confidence.

William's academic credentials span top institutions, including a Juris Doctor and Master of Arts in Arbitration & Dispute Resolution, and a Graduate Diploma in Construction Law. His qualifications are matched by his commitment to professional development, having lectured extensively on construction law, NEC contract administration, and dispute resolution.

In this Course, William guides participants through the full spectrum of NEC4 ECC principles, from collaborative contract philosophy and risk management to compensation events and commercial strategy. His sessions are enriched with real-world case studies, practical tips, and a focus on actionable skills that empower project managers to lead with confidence and compliance.
